COMPANY OVERVIEW

JL Holdings Pty Ltd is a maintenance and construction services company, which trades under two names—JL Mining and JL Mining Electrical—and supports the mining and industrial sectors across Western Australia.

During our years of experience, JL Holdings has provided safe, high-quality services that continue to meet our clients' expectations.

At JL Mining, we assist with labour hire for hydraulic service and repair light-vehicle repair and automotive electrical and high-voltage electrical projects.

At JL Mining Electrical, we execute construction projects.

We realise that our customers want a business partner that understands the demanding standards and responsive schedule constraints endemic to the mining industry.

At JL Holdings, our team is dedicated to safety and quality systems that ensure a high standard of service and project delivery. We are also equipped with the knowledge, experience and resources required to meet the demands of the mining industry. And we're growing.

In addition to our offices in East Bunbury, WA, JL Holdings will offer hydraulic engineering solutions and sales from a new office in Henderson, WA.

The management team at JL Holdings has spent many years in the field working in the industry. This boots-on-the-ground experience is now paying off because those days make us uniquely aware of the day-to-day demands faced by our clients.

OUR PURPOSE

Let the seasoned personnel from JL Holdings help you maintain your hypercritical heavy machinery. It pays to have your mining equipment working at peak performance!

Trust JL Holdings to help you find the personnel with the know how to help you maintain your electrical systems, heavy machinery, and high-voltage electrical infrastructure.

Our technicians specialise in—but aren't limited to—underground mining mobile and fixed plant equipment repair. Our people excel at hydraulic repair services too. And our electricians are licensed to manage high-voltage repair and installation.

JL Holdings is growing. Soon, we'll be able to offer same-day delivery of parts and technicians across all of Western Australia.

OUR SERVICES

JL Holdings has two divisions dedicated to making your mining and civil construction operations run at peak efficiency.

The first is JL Mining, which is the maintenance division, and conducts service inspections, maintenance and replacement of critical heavy machinery.

The other is JL Mining Electrical, and our personnel have experience installing high-voltage cables and peripheral systems designed to keep your operations up and running.

Of course, JL Holdings is dedicated to safety and efficiency. We also thrive working above and underground.

Trust JL Holdings with all your civil and mining operational needs.

JL Holdings knows the importance of 'hot-shot' delivery and promises to do our best to deliver critical equipment within 24 hours.

✓ AUTOMOTIVE ELECTRICIANS

Our automotive electricians will keep your vital mining and civil engineering equipment running efficiently.

✓ SHIFT ELECTRICIANS

Our team includes shift electricians with the training and growing experience to handle shift work for all your civil, commercial and industrial projects.

✓ HYDRAULIC FITTERS

Our mechanics know how to inspect, repair and replace critical components in your hydraulic systems. Don't let an important piece of heavy machinery sit idly by.

✓ REFRIGERATION MECHANICS

A critical component of any mining situation is the cooling systems for underground refuge chambers and surface structures. We help you keep them running smoothly.

✓ CIVIL ENGINEERING

Our civil construction personnel can dig trenches, conduits and trenches. We also regrade and level construction surfaces for your road systems and industrial operations.

✓ CRANE OPERATORS

A vital part of our civil construction division includes crane operation and our personnel are ready to help load and offload materials and heavy equipment for any operation.

✓ LIGHT VEHICLE FITTERS

Our light vehicle fitters are standing by to help keep your fleet of important cars, trucks and vans running their best.

JL Holdings is mobile.

We have a fleet of vehicles ready for field service and rapid response emergencies. We also have a fully equipped mobile workshop.

INDUSTRIES WE SERVE

JL Holdings maintenance historically has served the mining, oil, gas and energy companies throughout Western Australia. We have also worked with railroad and water management companies, civil construction firms and local governments.
